FUND DESCRIPTION

Dr. Lanovaz' research team develops mobile and Web apps to assist parents and practitioners who live and work with children with developmental disabilities (see www.labrl.org). The main purpose of these apps is to facilitate access to best practices and to support parents in the implementation of interventions.

These apps are free and will remain so, thanks to your donations.

Your donations are essential to sustain and improve the apps that have been developed.

HAVE YOU CONSIDERED A PLANNED GIFT?

A **planned gift** constitutes an important part of financial, tax and estate planning. It represents an alternative method of making a philanthropic donation that may be more suitable to certain donors depending on their personal, familial or tax considerations.

Planned gifts take on various forms, each with varying fiscal advantages. The most popular types of planned gifts include:

- Gifts of publicly traded securities
- Life Insurance Policies
- Bequests

Planned gifts have a significant and lasting impact on the University as they allow access to the long-term funding that is necessary to plan future investments. Join the thousands of graduates and friends of the Université de Montréal who are doing their share to make a significant impact on the development of this venerable institution.
